

WOMEN'S MONEY MATTERS

WOMEN EMPOWERING WOMEN

The women in our financial health programs need a different type of support. They need support from someone who is both a listening and accountability partner. Someone they trust and who cares for them as a whole person.

Volunteers are always needed for programs!

- Coach, Presenter, and other opportunities!
- Day and evening, virtual and in person programs available.
- Materials, resources, and trainings provided to volunteers.
- Create a sense of community with other volunteers and participants.

Be a Coach!

Share your passion for empowering women weekly for 3 months! Attend weekly workshops for 1.5 hours with your participant. You will be matched intentionally with one participant to learn their specific goals and help them overcome their challenges.

Be a Presenter!

If you have an hour and a half to share, this opportunity is for you! Men and women can both present and not all workshops require financial expertise.
